BULL-ETIN

S A N A N T O N I O R A D I O C L U B

President - Bill Way, WA5QHG Secretary - Bill Ross, K5LLK
Vice President - Everett Buck, W5SJP Treasurer - Frank Box, WA5VFM
Sergeant-at-Arms - Brenda and Linda Trappe

Meets first and third Fridays at 7:30 p.m. at the Red Cross building 90 Brees St. All who have an INTEREST in amateur radio are cordially invited to attend

Bull-etin Editor, Dean Davis, W5BGE Typist, Maybelle Davis, XYL

+++ +++ +++ +++ +++ +++ +++ +++ +++ +++ +++ +++ +++

"by The WAY"

de WA5 QHG

I would like to join with the rest of the Executive Committee to wish each of you a very happy and prosperous new year.

The Christmas party Dec. 11 was a huge success and if it continues to grow, we may run out of tickets next year. (Hey, Dean, save me two!)

The new year brings many activities--starting with the simulated emergency test (SET) on Jan. 29. Plans are to have operators at the Weather Bureau, the Jewish Community Center, and the Red Cross. Also under consideration is a coordinated emergency test with the Red Cross personnel. Frank W5QMH is looking for volunteers. Remember, this type of preparedness is what amateur radio is all about.

Of course, there will be Field Day in June with all the fun, food, and refreshments of a picnic, with some hamming thrown in. There has been some planning on having a swap fest area in operation during Field Day. More on this later.

Everett W5SJP and I are planning programs for the year, but we need your help. Give us ideas of what type of programs you want--or even volunteer to have a program on what you're interested in.

Roy W5EYB, the West Gulf Director, has stated that the San Antonio Radio Club is one of the most active that he has seen. This is due to the membership of the club and their participation in club activities, so don't sit back and wait to be entertained--go out and get new members--join in at Field Day--get in on SET--set up a program for some meeting--give us ideas on how to make SARC even better--get in, be active!

73, Bill WA5QHG

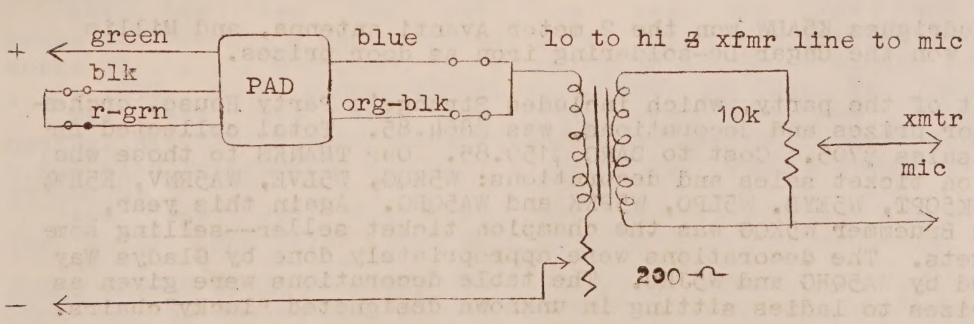
ANOTHER TOUCHTONE PAD HOOKUP METHOD
(Please refer to Nov. Bull-etin for additional information.)



73, Johnny W5LVE.

PARTY REPORT

The annual Christmas dinner-dance of the SARC was held Saturday, Dec. 11, at Strange's Party House with 121 in attendance, including 2 from Houston, 2 from Corpus Christi, 4 from New Braunfels, and 1 from Van Ormy.

A short informal meeting followed the dinner MC'd by Club President Bill Way WA5QHG. Roy Albright W5EYB, West Gulf Division ARRL Director spoke a "few" words to the group. Lee Ulrey K5HZR, South Texas Section Communications Manager, also made a short talk. Gene Jank W5EJT, President of the local chapter of the Quarter Century Wireless Association, introduced the QCWA members who were present. The new president of the Texas VHF-FM Society, Larry Higgings W5QMU announced the date of the spring meeting of the Society, Feb.26-27 at Corpus Christi. Monty Montemayor W5JKC showed film of last yr's Christmas party. Dancing and rag-chewing followed until 1 a.m.

Rose and Monty Montemayor W5JKC, ex SAers, traveled from Houston to make the party again. Other out of town visitors were: from Corpus Christi, Peggy and Thad Johnson W5IRQ (ex pres of SARC); from New Braunfels, Sidney and Robert Clark W5OIK--also Jane WA5JFZ and Dick Eastman WA5KYX.

The local chapter of the QCWA was well represented. Among those who attended along with their xyls included: W5BE, W5BGE, W5DCP, W5DUI, W5EDX, W5EIS, W5EJT. W5EOS, W5EYB, W5FFA, W5FKR, W5GYU, W5HIV, W5IUT, W5JC, W5KJ, W5KQG, W5LPO, W5PEK and WA5VFM. Frances Bruemmer W5KQG is the lone xyl member.

The San Antonio Repeater Organization also was well represented. Included in this group, along with their xyls, were: David Woodruff WB5DFQ (new president), K5AUW, W5BGE, W5DUI, W5EJT. W5EYB, K5FVW, WA5GOQ. K5HZR, W5JKU, W5LFG. W5LVE. W5OSG, K5MEN, W5PEK, W5PKK, W5QDB, W5QMH. W5QMU, W5VPQ. WA5VZV and WA5WON.

Other visitors included: Adelaid and John Brietler W5CTL, Mildred and Jack McComb W5OR, Katherine and Derwin King W5LUU, Bobbie and John Mohn W5MEU, Leona and Cole Crump W5DKP, Inez W5WXT and Ralph Cole W5THU, Carol and Richard Wilson, Allene and Lou Durst, Keiko and Roy Goodman WB4WXI, Alice and Joe Rodriguez, Berdie and Fred Brown K5ONC. Guests of W5KJ were Mr. and Mrs. Hugh O'Brien, guest of W5PKK--Anna Maria Reyna. Guest of K5YNS--Esther Shupp. Other visitors were Esther and John Miller K5FVW, Alice and Pepos Downson W5OSG, Edna Marie and Tex Kennedy W5QDB, and Jack Johnson WA5-VZV and his xyl.

The SARC has the unique distinction of the Sergeant-at-arms office being held by teen twins, a pair of petite girls--Linda and Brenda Trappe, (daughters of WA5IBD), who celebrated their 18th birthday at this party. A birthday cake was presented by Gladys Way, and "happy birthday" was sung to them. They have been active in the club for several years.

The licensed xyls who were in attendance were: Frances Bruemmer W5-KQG, Ella Munsch W5TSE, Inez Cole W5WXT, Ruth Jank K5OPT, Peggy De-Lay WA5GZQ, Jane Eastman WA5JFZ, Laura Schnider WN5FFP, Louann Wigton WN5FYO and Elizabeth Wheaton XE1NNN.

Bobby Rodriguez K5AUW won the 2 meter Avanti antenna, and Millie Wallace won the Ungar De-soldering iron as door prizes.

The cost of the party, which includes Strange's Party House, orchestra, door prizes and decorations, was $864.85. Total collected for ticket sales $705. Cost to SARC $159.85. Our THANKS to those who worked on ticket sales and decorations: W5KQG, W5LVE, WA5RNV, K5HZR, W5EJT. K5OPT, W5EYB. W5LPO, W5PKK and WA5QHG. Again this year, Frances Bruemmer W5KQG was the champion ticket seller--selling some 30 tickets. The decorations were appropriately done by Gladys Way assisted by WA5QHG and W5JKU. The table decorations were given as door prizes to ladies sitting in unknown designated "lucky"chairs.

Oh, yes! Date of the next one has been set on the second Sat. in December--next Dec. 9--reservations are being accepted NOW!

73, Dean W5BGE, Chairman of Arrangements

S IMULATED E MERGENCY T EST

by W5QMH

South Texas got off easy this year weather wise. We didn't have an actual big "E" this hurricane season to keep our local operators sharp. So we need the Simulated Emergency Test all the more this year. Some years it seems like we were run ragged taking care of communications for a hurricane, or a twister, or an explosion, and then a SET besides--but last year, all loaf and no practice--that's bad! We'll just have to work harder.

Red Cross wants to participate this year by simulating their own emergency. They wish to open shelters and feed hordes of phantom refugees. They further wish to cooperate with us and take advantage of the "confusion" we will create and mainly hold a little "confusion" of their own. The Weather Bureau wishes to add to the proceedings also. We will need enough operators to man the stations at Red Cross, Weather Bureau, and the Jewish Community Center. Two meter FM will be used for point-to-point communications.

You can readily see that such an operation will need many operators. Here is your opportunity to practice for a real emergency! All amateurs in the S.A. area are invited to participate. Please let me know your intentions of being a part of a vital preparedness program. Would like to see you at Red Cross Headquarters by 1 p.m. Saturday, Jan 29, and give W5SC/5 help at one of its several areas.

If you are not already an AREC member, please see me for application blank. We get extra points for each amateur who participates if he is a member. The afternoon frequency will be 7290, while the evening frequency will be 3961 KHz. Each person who checks in with W5SC/5 is expected to originate a message to your SEC.

Since Mother Nature did not make it necessary to keep our emergency skills up, don't neglect SET. Next season we may be needed. Ready?

73, Frank Gerwitz W5QMH, EC Bexar County

F I E L D D A Y 1 9 7 2, J U N E 24-25 By W5QMH

Plan NOW for Field Day this year! The date is June 24 and 25. The Northeast Preserve will be reserved again this year. Big things are planned this year. I personally am willing to offer a nice prize to the person coming up with the best suggestion (in writing) to the club to improve our participation, score, location, and conditions. (These suggestions must of course be accepted by vote of the club membership.) A swapfest is in the planning stages to be held in conjunction with the Field Day operation. I am looking forward to seeing all the amateurs in the S.A. area June 24 and 25.

73, Frank W5QMH, Field Day Chairman.

JERRY MORGAN W5ABQ -- Jerry was in hospital some 10 days prior to Dec. 25. He states that it was "preventative maintenance" for a heart condition. He is home now, and by publication time should be back at work. Jerry appreciated the many cards and "get-well" wishes. Look out! CW airways.

WINTER MEETING VHF-FM CORPUS CHRISTI, TEX.

by WA5AUB

The Texas VHF-FM Society winter meeting will be held in Corpus Christi on the week end of February 26 and 27, 1972 at the Holiday Inn--North on Shoreline Boulevard. A registration desk will be set up in the lobby Friday night for early arrivals.

Saturday morning activities begin at 9:00 a.m. with registration. Coffee and doughnuts will be served in the Hospitality Room. The rest of the morning is open for you to enjoy the sunshine in our "Sparkling City By the Sea". This would be a nice time for a visit to the Padre Island National Seashore about 1 hour away by car where you may enjoy swimming, surfing or beachcombing. Charter boat rides in Corpus Christi Bay are available at the T-Head about four blocks south of the motel and a public beach is located about six blocks south in front of Memorial Coliseum. Lunch is open for your own arrangements.

Meetings will begin at 2:00 p.m. with progress reports from repeater groups throughout the state. This will be followed by a work session polishing up the Society's constitution for presentation at the business meeting on Sunday morning. Dinner arrangements are open but many will enjoy the fabulous seafood at the Ship Ahoy just two blocks from the motel.

A technical session will begin at 7:30 p.m. moderated by Bob Pace WA5CJG and Ted Bensinger W5PCX. First, there will be a progress report on the Texas Intercity Repeater Network, followed by a general technical roundtable dealing with subjects suggested by the group. This will last until everyone is exhausted.

Sunday's activities begin at 9:30 a.m. with a general business session to adopt the Society's constitution and transact other Society business. This will be followed by talks by Roy Albright W5EYB, West Gulf ARRL Director, and George Munsch W5VPQ, member of the ARRL Repeater Advisory Committee. Bob Pace WA5CJG will summarize the technical session activities. Adjournment is expected by noon.

Room rates are: Single - $13.00, Double (1 bed) - $17.00, Double (2 beds) - $20.00. Please make your reservations early with Shelby Alexander WA5OBF, 425 Sharon St., Corpus Christi, Texas, 78412.

All repeater groups in the state are urged to send as many representatives as possible to this meeting. One member of the group should be designated as the technical committee member for the Society. The Society's Technical Committee, which is to be made up of one representative from each operating repeater in the state, will advise the Directors on technical matters, promote exchange of information among repeater operators and help coordinate activities among the various areas of the state. Interested groups from outside the state are also invited to send one or more representatives.

Individuals planning repeaters, or just curious as to what its all about, are cordially invited to participate. These people can receive guidance and counsel, probably more than they need, and perhaps even more than they can stand.

73, Bill Clark WA5AUB.

W 5 Santa Clause

S.A.'s phantom operator STRIKES AGAIN: For several years in a row, W5 Santa Clause/5 North Pole has been in operation on Christmas Eve. Many Texas area amateurs had looked forward to Santa's help with the young ones. Prior to Christmas, many requests had poured in to S.A. wondering whether W5 Santa Clause's help would be available. The mystery operator checked into nets on 40 m and 75 m and performed well in his jovial "Ho-Ho-Ho, Merry Christmas" manner promising enumerable gifts and goodies to all the youngsters who were available. The timely conversion of SC in the call W5SC has been an asset for SARC--thanks to the "phantom"-"mystery" operator.

by W5BGE

CONTEST ADVISORY COMMITTEE

by K5TSR

In May of 1968 the ARRL Board of Directors established the Contest Advisory Committee. The purpose of this committee has been to stimulate communication and participation in this phase of the League's activities. To this point, the committee has been engaged in the review of the rules of the major ARRL sponsored contests. This phase of the committee's work is nearly complete, the only exception being the VHF activities.

The second phase of the committee's work will be in the area of "philosophy". I assume that this will include ideas such as: writing stated goals for contests, and ascertaining whether contests fulfill goals and objectives set out for them. The statement of goals might help to provide guidelines for any new contests when they are proposed.

Since my term on the committee began on January 1, 1972, it is obvious that I will be learning the ropes for a while. I will certainly be interested in, and need any feedback from those of you who are interested in this area.

I am your representative on the committee, and as such I can only represent you if I have your ideas. My address is 4343 Bright Sun, San Antonio, Texas 78217, and my phone number is 655-6285. I hope to see you in the ARRL DX Competition in February and March.

73, Bill Parry K5TSR.

FRED HENSON K5ENK

Fred is being missed by amateurs of the S.A. area--for many years now he has been the hams contact at Modern Electronics (now Electrotex). He is suffering from an arthritic condition in the neck area, which at times causes the vein in his neck to collapse and stop the flow of blood to his head--also he has had a heart condition for some time. He is at home now in New Braunfels, 1575 Kuehler Ave., 78130, phone 625 6846.. He is unable to drive with this condition. Visits, cards, etc., would be appreciated. Miracle medicines are his hope for aid at this time.

... . - ... . - ... . - ... . - ... . -

DONATIONS to help defray mailing cost of BULL-ETIN were received from the following: H. W. Hall, Jr.,K5FPJ; Dick Eastman WA5KYX; Henry Morrison W5RIY; William R. Nelson WA7SJN (Mountain Home AFB Idaho); C. L. Roberts, Port Lavaca; John Plapp WA5WPJ; and Jeff Blair W5OYB.

S P L A T T E R by W5BGE

The Trappe family was missed at the 7 Jan. meeting--understand they were all sick! . . . . FCC at Houston now examining on Thursday instead of Tuesday . . . . The 7290 net members and their friends are expected to converge on Bastrop State Park April 28, 29, 30. Check in to the net for details . . . . The equipment from the estate of W5DTJ can be seen at Radio & TV Parts, which includes an NC 303 rcvr and many other items . . . . Terry W5ETG invited girl friend over to see his pad and she was very disappointed when it turned out to be TOUCHtone . . . . Ivan WA5RNV was in rare form at last club meeting--telling story after story . . . . The parking lot of Five Points Cafe was full of antennas and call letter license plates Sat. morning 8 January. Some 25 hams were there. Most of the officers of SARC and SARO were present. You could have called a meeting of either group! Among those present were: W5's-PEK, EJT, ETG, LVE, WEU, BGE; K5's-ALX, AXN, PWX, CFQ, HZR, UKN, DSF, PKX, LLK, LTE, MEN; K8AIT/5; WA5's-AIG (Uvalde), QHG, VEM, RNV, UAM; WB5DFQ and WB4WXI (also Lucy, the waitress). 73, W5BGE

1971 IN RETROSPECT by K5HZR

In the year 1971 the ARRL Field Organization of the Southern Texas Section showed considerable progress over previous years considering what facts and figures were available at the start of the year. We began the year with approximately 170 appointees in the section, a large percentage of which were inactive and some had moved out of the area. There are now 76 appointees on the rolls who are actively engaged in the furtherance of amateur radio and Public Service. This is evidenced by the fact that the number of stations submitting Station Activity reports, increased from 15 in January to 32 in December 1971. Our Official Observer program became more effective and is showing marked results. We now have 12 dedicated Official Observers and by the number and nature of the reports they submit they are to be commended.

We, in the Southern Texas section, were most fortunate during 1971 in that we had no major disasters such as hurricanes, etc. Some disasters did occur but communications were handled easily and efficiently by the ECs and AREC groups involved. I would like to remind all ECs and club AREC groups that now is not the time however, to relax our vigilance and state of preparedness, since disaster frequently strikes when we least expect it. Your attention is invited to the SET for 1972 which is outlined on page 79 of January's QST. Your participation is encouraged.

1971 saw the TEX CW net organized into a well trained and managed team, due largely to the efforts of Jim Hicks W5EZY, the Route Manager. As far as affiliated club activity is concerned, not much change was noted, since I only receive reports from 4 clubs on a regular monthly basis. Out of 26 clubs in the section, club reporting is one point that could be improved upon.

1971, regretfully, saw the passing of the following from our ranks to Silent Keys: K5OYJ, W5GQT, W5CWS, W5FGH, W5VFG, WA5WSS, W5BUV, W5MCW. W5EJW, W5RVC, K5IUY, K5PGI, W5JIF, W5KXA, W5NJH, W5ZON, W5DTJ, K5FQV, W5LI, WA5QPN, K5MDS, K5SPQ. W5AQK, K5GTZ, W5JSQ and W5OJB.

From the last count date in 1966 our ARRL membership for the section rose from 1435 to 1897 in October, 1971 and shows signs of growth at an even faster rate.

TRAFFIC FOR 1971

Month	No.of Stations	Msgs Orig	Msgs Recd	Msgs Rel	Msgs Del	Total
January	15	142	495	161	199	997
February	21	139	532	239	227	1137
March	19	129	413	161	160	863
April	19	174	332	161	110	777
May	16	93	345	164	98	700
June	16	109	421	170	169	869
July	13	97	317	113	128	665
August	19	521	356	151	88	1116
September	20	212	413	150	127	902
October	23	198	399	150	132	879
November	30	241	807	400	301	1749
December	32	307	1039	600	290	2236
Total 1971	243	2262	5869	2620	2029	12890

Signigicant is the steady increase in number of stations reporting (people getting involved). Individually the above figures may not seem too impressive but, when totaled they are quite an awesome record of public service rendered by dedicated amateurs. To each member and club, much success in 1972.

73,

E. Lee Ulrey, K5HZR

Section Communications Manager

Southern Texas Section ARRL.

COMMENTS OF THE WEST GULF DIVISION DIRECTOR, ARRL

As most of you know, the ARRL board of directors last year changed the Articles of Association to provide for two board meetings per year, beginning this year. Initially I opposed the proposal because I recognized it would add more working load onto the directors shoulders and would consume much more time. Ultimately I gave the idea my support because I became convinced of the need for more control over League operations by the board.

Next week, at Hartford we shall be working on a long range plan of aims, goals and methods of operations for the League, in order to get away from the time honored day to day concept.

Undoubtedly one facet of prime interest will be initiation of action by the League to press for more frequencies for amateur use. Obviously we are not going to get more frequencies overnight. It will be a long, hard, and expensive fight. We have a glimmer of hope however. Perhaps unknown to many, the commercial services who formerly used the spectrum between 3 and 30 Mhz have, or are converting to satellite and coax for more dependable communications. This will leave big areas in the high frequency spectrum up for grabs.

Perhaps if we plan carefully, and move aggressively, we can get some of these frequencies for amateur use.

I repeat, it will be a tough fight. The League will need money, and membership support. Just another reason for every active amateur to be a member of the League.

* * * * * * * * * * *

This is election year for the League President and Vice Presidents. No doubt there will be a bit of politicking going on at Hartford, Hi. However it is not known at the moment whether or not President Denniston desires to continue in the job.

* * * * * * * * * *

At the time this goes to press I have just returned from attending a most interesting couple of days up in the Dallas area. Mr. Prose Walker, W4BW was guest speaker at the Monday night meeting of the Richardson Wireless Klub and on Tuesday morning Mr. Walker and I held conferences with representatives of the north Texas FM repeater groups. Space here does not permit a full report on these meetings but I must say I was most heartened to observe the new FCC chief of Amateur licensing holds approximately the same philosophy towards amateur radio that most of us hold. If nothing else, the meetings have opened an avenue of communication between your Director and the FCC Chief of Amateur Licensing which should indeed prove of value to us, and possibly to the Commission.

* * * * * * * * *

I've paid my 1972 San Antonio Radio Club Dues. Have you?

73,

ROY L. ALBRIGHT W5EYB
DIRECTOR, ARRL WEST GU LF DIVISION.
